SPE JOURNAL
VOLUME 21

SUBJECT AND TITLE INDEX 1965

A

ABS
Plastics Featured at SAE Show, O. Pfannkuch, *March, p. 254*

Abstracting
Abstracting Service, *January, p. 33*

Acrylics
Comments on Extrusion, P. N. Richardson, *November, p. 1283*
An Epoxy-Acrylic Thermoset, C. A. May, R. E. Burge, Jr., and S. H. Christie, *September, p. 1106*
Fracture Mechanics of Stress Cracking and Crazing, L. J. Broutman, *March, p. 283*
Plastics Featured at SAE Show, O. Pfannkuch, *March, p. 254*
Plastics in Building, R. P. Conger, *June, p. 538*
Polymethylmethacrylate Extruded Sheets, I. Ronzoni and U. Monaco, *October, p. 1203*

Alkyds
Plastics Featured at SAE Show, O. Pfannkuch, *March, p. 254*

Allylics
Physical Properties of High-Temperature Allylic Prepregs, H. Raech, Jr. and J. M. Kreinik, *October, p. 1189*

Applications
Design Engineering Show Broadens the Horizon of Plastics, O. Pfannkuch, *July, p. 636*
Designing with Thermoplastic Polyurethane Sheet and Film, D. Esarove, *October, p. 1184*
Economics of Urethane Foams—A Summary, M. A. Kohudic, *July, p. 660*
Microfine Polyolefin Powders, S. G. Howell, *June, p. 583*
Plastics Featured at SAE Show, O. Pfannkuch, *March, p. 254*
Plastics in Building, R. P. Conger, *June, p. 538*
Processing Reinforced Plastics Interior Automotive Parts, R. W. Meyer, *November, p. 1279*
Q2: A New Polycyclamide Engineering Plastics, M. T. Watson and G. M. Armstrong, *May, p. 475*
Recent Developments in Sandwich Construction with Rigid Urethane Foam, R. L. Siren, *November, p. 1290*
Recent Developments: Plastics in the Automotive Industry, Detroit Section, *April, p. 400*
Reinforced Plastics, D. V. Rosato, *June, p. 541*
Thermoplastic Foams for Rigid Packaging, Western New England RETEC—A Summary of Papers, *December, p. 1346*
The Use of Carbon Blacks in Plastics, I. Drogin, **Part I,** *March, p. 248;* **Part II,** *April, p. 371*

Automotive
Color in Plastics, *September, p. 1063*
Design Engineering Show Broadens the Horizon of Plastics, O. Pfannkuch, *July, p. 636*
Plastics Featured at SAE Show, O. Pfannkuch, *March, p. 254*
Processing Reinforced Plastics Interior Automotive Parts, R. W. Meyer, *November, p. 1279*
Recent Developments: Plastics in the Automotive Industry, Detroit Section, *April, p. 400*
Recent Developments in Sandwich Construction with Rigid Urethane Foam, R. L. Siren, *November, p. 1290*
Reinforced Plastics, D. V. Rosato, *June, p. 541*

B

Blow Molding
Blow Molding, G. E. Pickering, *June, p. 534*
Know Your Parison!, N. Sheptak and C. E. Beyer, *February, p. 190*
Phenoxy Blow Molded Bottles, J. A. Elder, Jr., *May, p. 480*
Reinforced Plastic Molds for Large Blow Molding Structures, M. E. Kenney, *December, p. 1384*
Vinyl Plastics, R. A. Park, *June, p. 533*

Building
Plastics in Building, R. P. Conger, *June, p. 538*
Reinforced Plastics, D. V. Rosato, *June, p. 541*

Butadiene-Styrene
New Hydrocarbon Resin Molding Compounds, B. M. Vanderbilt, J. J. Jaruzelski and T. Lewis, *March, p. 288*

C

Calendering
The Case for Calenders, S. E. Perlberg and R. C. Seanor, *May, p. 447*

Carbon Black
The Use of Carbon Blacks in Plastics, I. Drogin, **Part I,** *March, p. 248;* **Part II,** *April, p. 371*

Carbon Filler
New Hydrocarbon Resin Molding Compounds, B. M. Vanderbilt, J. J. Jaruzelski and T. Lewis, *March, p. 288*
The Use of Carbon Blacks in Plastics, I. Drogin, **Part I,** *March, p. 248;* **Part II,** *April, p. 371*

Casting
Precision Casting of Mold Components, W. G. Pfaff, *April, p. 397*

Catalysts
Economics of Urethane Foams—A Summary, M. A. Kohudic, *July, p. 660*
Rapid Cycle Molding of Improved Surface Laminates, C. F. Thompson, L. C. Rubens and R. M. Nowak, *March, p. 267*

Cellular Plastics
Economics of Urethane Foams—A Summary, M. A. Kohudic, *July, p. 660*
Novel Process for Molding Urethane Foam, R. Moroni and H. E. Schmetkamp, *May, p. 470*
Recent Developments in Sandwich Construction with Rigid Urethane Foam, R. L. Siren, *November, p. 1290*
Technology and Engineering—Development on the March, M. A. Kohudic, *March, p. 281*
Urethane-Foam Machinery Exhibited at Delft, Holland, SPE Staff, *September, p. 1080*

Chemical Resistance
Designing with Thermoplastic Polyurethane Sheet and Film, D. Esarove, *October, p. 1184*
An Epoxy-Acrylic Thermoset, C. A. May, R. E. Burge, Jr. and S. H. Christie, *September, p. 1106*
New Hydrocarbon Resin Molding Compounds, B. M. Vanderbilt, J. J. Jaruzelski and T. Lewis, *March, p. 288*

Chlorostyrene
Rapid Cycle Molding of Improved Surface Laminates, C. F. Thompson, L. C. Rubens and R. M. Nowak, *March, p. 267*

Clay Filler
Rapid Cycle Molding of Improved Surface Laminates, C. F. Thompson, L. C. Rubens and R. M. Nowak, *March, p. 267*

Coating
Color in Plastics, *September, p. 1063*
Evaluating the Processing Characteristics of Wire and Cable Coating Polyethylene Resins, J. E. Hager and P. E. Jacobs, *January, p. 75*
Evaluation and Description of Metallic Colors, H. D. Felsher and W. J. Hanau, *December, p. 1371*
Plastics Featured at SAE Show, O. Pfannkuch, *March, p. 254*
Pre-Centered Pressure Coating Die, N. C. Wyeth, *October, p. 1171*
Processing Reinforced Plastics Interior Automotive Parts, R. W. Meyer, *November, p. 1279*
Vinyl Plastics, R. A. Park, *June, p. 533*

Coloring
Coloring and Finishing of Plastics, M. M. Gerson, *June, p. 549*
Coloring of Plastics II, Rochester Section, *April, p. 404*
Color in Plastics, *September, p. 1063*
Evaluation and Description of Metallic Colors, H. C. Felsher and W. J. Hanau, *December, p. 1371*

Recent Developments: Plastics in the Automotive Industry, Detroit Section, *April, p. 400*
Recent Developments in Sandwich Construction with Rigid Urethane Foam, R. L. Siren, *November, p. 1290*
Reinforced Plastics, D. V. Rosato, *June, p. 541*

B

Blow Molding
Blow Molding, G. E. Pickering, *June, p. 534*
Know Your Parison!, N. Sheptak and C. E. Beyer, *February, p. 190*
Phenoxy Blow Molded Bottles, J. A. Elder, Jr., *May, p. 480*
Reinforced Plastic Molds for Large Blow Molding Structures, M. E. Kenney, *December, p. 1384*
Vinyl Plastics, R. A. Park, *June, p. 533*

Building
Plastics in Building, R. P. Conger, *June, p. 538*
Reinforced Plastics, D. V. Rosato, *June, p. 541*

Butadiene-Styrene
New Hydrocarbon Resin Molding Compounds, B. M. Vanderbilt, J. J. Jaruzelski and T. Lewis, *March, p. 288*

C

Calendering
The Case for Calenders, S. E. Perlberg and R. C. Seanor, *May, p. 447*

Carbon Black
The Use of Carbon Blacks in Plastics, I. Drogin, **Part I,** *March, p. 248;* **Part II,** *April, p. 371*

Carbon Filler
New Hydrocarbon Resin Molding Compounds, B. M. Vanderbilt, J. J. Jaruzelski and T. Lewis, *March, p. 288*
The Use of Carbon Blacks in Plastics, I. Drogin, **Part I,** *March, p. 248;* **Part II,** *April, p. 371*

Casting
Precision Casting of Mold Components, W. G. Pfaff, *April, p. 397*

Catalysts
Economics of Urethane Foams—A Summary, M. A. Kohudic, *July, p. 660*
Rapid Cycle Molding of Improved Surface Laminates, C. F. Thompson, L. C. Rubens and R. M. Nowak, *March, p. 267*

Cellular Plastics
Economics of Urethane Foams—A Summary, M. A. Kohudic, *July, p. 660*
Novel Process for Molding Urethane Foam, R. Moroni and H. E. Schmetkamp, *May, p. 470*
Recent Developments in Sandwich Construction with Rigid Urethane Foam, R. L. Siren, *November, p. 1290*
Technology and Engineering—Development on the March, M. A. Kohudic, *March, p. 281*
Urethane-Foam Machinery Exhibited at Delft, Holland, SPE Staff, *September, p. 1080*

Chemical Resistance
Designing with Thermoplastic Polyurethane Sheet and Film, D. Esarove, *October, p. 1184*
An Epoxy-Acrylic Thermoset, C. A. May, R. E. Burge, Jr. and S. H. Christie, *September, p. 1106*
New Hydrocarbon Resin Molding Compounds, B. M. Vanderbilt, J. J. Jaruzelski and T. Lewis, *March, p. 288*

Chlorostyrene
Rapid Cycle Molding of Improved Surface Laminates, C. F. Thompson, L. C. Rubens and R. M. Nowak, *March, p. 267*

Clay Filler
Rapid Cycle Molding of Improved Surface Laminates, C. F. Thompson, L. C. Rubens and R. M. Nowak, *March, p. 267*

Coating
Color in Plastics, *September, p. 1063*
Evaluating the Processing Characteristics of Wire and Cable Coating Polyethylene Resins, J. E. Hager and P. E. Jacobs, *January, p. 75*
Evaluation and Description of Metallic Colors, H. D. Felsher and W. J. Hanau, *December, p. 1371*
Plastics Featured at SAE Show, O. Pfannkuch, *March, p. 254*
Pre-Centered Pressure Coating Die, N. C. Wyeth, *October, p. 1171*
Processing Reinforced Plastics Interior Automotive Parts, R. W. Meyer, *November, p. 1279*
Vinyl Plastics, R. A. Park, *June, p. 533*

Coloring
Coloring and Finishing of Plastics, M. M. Gerson, *June, p. 549*
Coloring of Plastics II, Rochester Section, *April, p. 404*
Color in Plastics, *September, p. 1063*
Evaluation and Description of Metallic Colors, H. C. Felsher and W. J. Hanau, *December, p. 1371*

The Use of Carbon Blacks in Plastics, I. Drogin, **Part I**, *March, p. 248;* **Part II**, *April, p. 371*

Compression Molding

Mold Construction for Automatic Molding of Thermosetting Materials, R. R. Martino, *February, p. 165*

Cooling

Countercurrent Heat Exchange in the Cooling of Extruded Wire Coatings, J. R. James, *March, p. 261*
Dual-Purpose Water Chilling System Ups Molding-Machine Production, Heats Plant in Winter, C. E. Waters, *April, p. 362*
Extrusion, R. K. Senn, *June, p. 550*
Reinforced Plastic Molds for Large Blow Molding Structures, M. E. Kenney, *December, p. 1384*

Creep

Engineering Properties of a New Polytetrafluoroethylene, G. P. Koo, E. D. Jones, N. N. Riddell and J. L. O'Toole, *September, p. 1100*

Cryogenic Temperature

The Effect of Cryogenic Temperatures on the Mechanical Properties of Reinforced Plastics Laminates, J. Hertz, *February, p. 181*

Curing

Determination of Stresses in Cured Epoxy Resins, H. Dannenberg, *July, p. 669*
Extrusion of Peroxide Containing Polyethylene, C. J. Benning, *September, p. 1083*
Fracture Mechanics of Stress Cracking and Crazing, L. J. Broutman, *March, p. 283*
New Hydrocarbon Resin Molding Compounds, B. M. Vanderbilt, J. J. Jaruzelski and T. Lewis, *March, p. 288*
Physical Properties of High-Temperature Allylic Prepregs, H. Raech, Jr. and J. M. Kreinik, *October, p. 1189*
Rapid Cycle Molding of Improved Surface Laminates, C. F. Thompson, L. C. Rubens and R. M. Nowak, *March, p. 267*
Technology and Engineering—Development on the March, M. A. Kohudic, *March, p. 281*

D

Data Retrieval

Input and Output—Technical Information Retrieval, L. I. Naturman, *January, p. 17*

Die Design

Essentials of Mold Design in Production Planning, E. W. Vaill, *March, p. 274*
Evaluating the Processing Characteristics of Wire and Cable Coating PE Resins, J. E. Hager and P. E. Jacobs, *January, p. 75*
Extrusion of Rigid PVC Powder Compounds, J. A. Rolls and G. B. Richmond, *February, p. 197*
Graphical Solutions of Die Constant Equations, W. L. Krueger, *May, p. 460*
Pre-Centered Pressure Coating Die, N. C. Wyeth, *October, p. 1171*

Draw Down

Know Your Parison!, N. Sheptak and C. E. Beyer, *February, p. 190*

E

Economics

Economics of Urethane Foams—A Summary, M. A. Kohudic, *July, p. 660*
A Formula for Replacing Processing Machinery, S. Weissman, *August, p. 759*
Plastics Processing Economics—Pneumatic Resin Conveyor Cuts Costs for Processor, O. E. Smith, *Nov., p. 1295*
SPE Journal Plastics Industry Profit Guide, *November, p. 1256*
The SPE and the 22nd ANTEC in Canada, H. McCann, *December, p. 1352*
Reinforced Plastic Molds for Large Blow Molding Structures, M. E. Kenney, *December, p. 1384*

Education

The SPE in Plastics Education, H. C. McCann, *October, p. 1159*
The SPE and the 22nd ANTEC in Canada, H. McCann, *December, p. 1352*

Elastic Behavior

Determination of Stresses in Cured Epoxy Resins, H. Dannenberg, *July, p. 669*
Know Your Parison!, N. Sheptak and C. E. Beyer, *February, p. 190*

Electrical Properties

New Hydrocarbon Resin Molding Compounds, B. M. Vanderbilt, J. J. Jaruzelski and T. Lewis, *March, p. 288*
Physical Properties of High-Temperature Allylic Prepregs, H. Raech, Jr. and J. M. Kreinik, *October, p. 1189*
Plastics in Electrical Insulation, L. A. Liebowitz, *June, p. 530*
Polymethylmethacrylate Extruded Sheets, I. Ronzoni and U. Monaco, *October, p. 1203*
Preliminary Evaluation of Polymer Properties, A. E. Sherr, *January, p. 67*
The Use of Carbon Blacks in Plastics, I. Drogin, **Part I**, *March, p. 248;* **Part II**, *April, p. 371*

Electronic Components

Plastics in Electrical Insulation, L. A. Liebowitz, *June, p. 530*

Embrittlement

Fracture Mechanics of Stress Cracking and Crazing, L. J. Broutman, *March, p. 283*

Encapsulating

Plastics in Electrical Insulation, L. A. Liebowitz, *June p. 530*

Environmental Cracking

Effect of Extrusion Processing on Environmental Stress Cracking Resistance of Polyethylene Sheathing Compounds, J. R. Apen, **Part I**, *July, p. 643;* **Part II**, *August, p. 745*
Fracture Mechanics of Stress Cracking and Crazing, L. J. Broutman, *March, p. 283*

Environmental Performance

Determination of Stresses in Cured Epoxy Resins, H. Dannenberg, *July, p. 669*
The Effect of Cryogenic Temperatures on the Mechanical Properties of Reinforced Plastic Laminates, J. Hertz, *February, p. 181*
Effect of Extrusion Processing on Environmental Stress Cracking Resistance of Polyethylene Sheathing Compounds, J. R. Apen, **Part I**, *July, p. 643;* **Part II**, *August, p. 745*
New Hydrocarbon Resin Molding Compounds, B. M. Vanderbilt, J. J. Jaruzelski, and T. Lewis, *March, p. 288*
The Use of Carbon Blacks in Plastics, I. Drogin, **Part I**, *March, p. 248;* **Part II**, *April, p. 371*

Epoxies

Determination of Stresses in Cured Epoxy Resins, H. Dannenberg, *July, p. 669*
The Effect of Cryogenic Temperatures on the Mechanical Properties of Reinforced Plastic Laminates, J. Hertz, *February, p. 181*
An Epoxy-Acrylic Thermoset, C. A. May, R. E. Burge, Jr. and S. H. Christie, *September, p. 1106*
Physical Properties of High-Temperature Allylic Prepregs, H. Raech, Jr. and J. M. Kreinik, *October, p. 1189*
Plastics Featured at SAE Show, O. Pfannkuch, *March, p. 254*
Thermal Processing Stability of Vinyl Chloride Plastics, J. B. DeCoste, *August, p. 764*

Ethylene-Butylene

Extrusion of Peroxide Containing Polyethylene, C. J. Benning, *September, p. 1083*

Ethylene-Vinyl Acetate

Design Engineering Show Broadens the Horizon of Plastics, O. Pfannkuch, *July, p. 636*
Polyolefins, A. A. Hiltz, *June, p. 544*

Extruder Components

Comments on Extrusion, P. N. Richardson, *November, p. 1283*
The Compact Extruder, *February, p. 157*
Countercurrent Heat Exchange in the Cooling of Extruded Wire Coatings, J. R. James, *March, p. 261*
Evaluating the Processing Characteristics of Wire and Cable Coating Polyethylene Resins, J. E. Hager and P. E. Jacobs, *January, p. 75*
Extrusion, R. K. Senn, *June, p. 550*
Extrusion of Rigid PVC Powder Compounds, J. A. Rolls and G. B. Richmond, *February, p. 197*
Graphical Solutions of Die Constant Equations, W. L. Krueger, *May, p. 460*
Industry Trends in Machinery, R. Sackett, *December, p. 1359*
Mechanical Aspects of Extruder Cylinders, L. J. Mattek, *January, p. 80*
Metering Screw Performance with Temperature Gradients, Part I, Experiments, D. I. Marshall, I. Klein and R. H. Uhl, *October, p. 1192;* **Part II, Comparison**

of Calculated and Measured Performance, I. Klein, D. I. Marshall and C. A. Friehe, *November, p. 1299;* **Part III, Conclusions for Computer Simulation,** D. I. Marshall and I. Klein, *December, p. 1376*
New View of Extrusion, R. F. Westover, *May, p. 455*
On Stream Melt Viscosity Analyzer, R. O. Welty, *August, p. 774*
Phenoxy Blow Molded Bottles, J. A. Elder, Jr., *May, p. 480*
Pre-Centered Pressure Coating Die, N. C. Wyeth, *October, p. 1171*
Thermal and Viscosity Effects in Short Barreled Extruders, D. W. Riley, *June, p. 567*

Extrusion

Applications of the Elastic Melt Extruder, J. E. Henry and C. E. Plymale, *April, p. 391*
The Case for Calenders, S. E. Perlberg and R. C. Seanor, *May, p. 447*
Comments on Extrusion, P. N. Richardson, *November, p. 1283*
The Compact Extruder, *February, p. 157*
Countercurrent Heat Exchange in the Cooling of Extruded Wire Coatings, J. R. James, *March, p. 261*
Effect of Extrusion Processing on Environmental Stress Cracking Resistance of Polyethylene Sheathing Compounds, J. R. Apen, Part, I, *July, p. 643,* Part, II, *August, p. 745*
Evaluating the Processing Characteristics of Wire and Cable Coating Polyethylene Resins, J. E. Hager and P. E. Jacobs, *January, p. 75*
Extrusion, R. K. Senn, *June, p. 550*
Extrusion of Peroxide Containing Polyethylene, C. J. Benning, *September, p. 1083*
Extrusion of Rigid PVC Powder Compounds, J. A. Rolls and G. B. Richmond, *February, p. 197*
Graphical Solutions of Die Constant Equations, W. L. Krueger, *May, p. 460*
Industry Trends in Machinery, R. Sackett, *December, p. 1359*
Know Your Parison!, N. Sheptak and C. E. Beyer, *February, p. 190*
Metering Screw Performance with Temperature Gradients—Part I, Experiments, D. I. Marshall, I. Klein and R. H. Uhl, *October, p. 1192;* **Part II, Comparison of Calculated and Measured Performance,** I. Klein, D. I. Marshall and C. A. Friehe, *November, p. 1299;* **Part III, Conclusions for Computer Simulation,** D. I. Marshall and I. Klein, *December, p. 1376*
Metering Screws in a Screw Injection Molding Machine, P. N. Richardson and J. C. Houston, *January, p. 44*
New View of Extrusion, R. F. Westover, *May, p. 455*
Pre-Centered Pressure Coating Die, N. C. Wyeth, *October, p. 1171*
Thermal and Viscosity Effects in Short Barreled Extruders, D. W. Riley, *June, p. 567*
Thermal Processing Stability of Vinyl Chloride Plastics, J. B. DeCoste, *August, p. 764*
The Use of Carbon Blacks in Plastics, I. Drogin, **Part I,** *March, p. 248;* **Part II,** *April, p. 371*

F

Fiber Glass

Design Engineering Show Broadens the Horizon of Plastics, O. Pfannkuch, *July, p. 636*

Filament Winding

An Epoxy-Acrylic Thermoset, C. A. May, R. E. Burge, Jr. and S. H. Christie, *September, p. 1106*
Plastics Featured at SAE Show, O. Pfannkuch, *March, p. 254*
Reinforced Plastics for Deep Submersible Vehicles, B. C. Anderson, *Sept., p. 1090*

Fillers

Microfine Polyolefin Powders, S. G. Howell, *June, p. 583*

Film

Designing with Thermoplastic Polyurethane Sheet and Film, D. Esarove, *October, p. 1184*
Q2: A New Polycyclamide Engineering Plastic, M. T. Watson and G. M. Armstrong, **May, p.** *475*

Finishing

Coloring and Finishing of Plastics, M. M. Gerson, *June, p. 549*

Flexural Properties

An Epoxy-Acrylic Thermoset, C. A. May, R. E. Burge, Jr. and S. H. Christie, *September, p. 1106*
Evaluation and Description of Metallic Colors, H. C. Felsher and W. J. Hanau, *December, p. 1371*
Physical Properties of High-Temperature Allylic Prepregs, H. Raech, Jr. and J. M. Kreinik, *October, p. 1189*
Processing Reinforced Plastics Interior Automotive Parts, R. W. Meyer, *November, p. 1279*

Flow Rate

Extrusion of Peroxide Containing Polyethylene, C. J. Benning, *Sept., p. 1083*
Extrusion of Rigid PVC Powder Compounds, J. A. Rolls and G. B. Richmond, *February, p. 109*
Industry Trends in Machinery, R. Sackett, *December, p. 1359*
Metering Screws in a Screw Injection Molding Machine, P. N. Richardson and J. C. Houston, *January, p. 44*
On-Stream Melt Viscosity Analyzer, R. O. Welty, *August, p. 774*

Fluorocarbons

The Effect of Cryogenic Temperatures on the Mechanical Properties of Reinforced Plastics Laminates, J. Hertz, *February, p. 181*
Engineering Properties of a New Polytetrafluoroethylene, G. P. Koo, E. D. Jones, N. N. Riddell and J. L. O'Toole, *September, p. 1100*

Foams

Economics of Urethane Foams—A Summary, M. A. Kohudic, *July, p. 660*
Novel Process for Molding Urethane Foam, R. Moroni and H. E. Schmetkamp, *May, p. 470*
Plastic Foams, Palisades Section, *January, p. 14*
Recent Developments in Sandwich Construction With Rigid Urethane Foam, R. L. Siren, *November, p. 1290*
Technology and Engineering—Development on the March, M. A. Kohudic, *March, p. 281*
Urethane Foam Machinery Exhibited at Delft, Holland, SPE Staff, *September, p. 1080*
Vinyl Plastics, R. A. Park, *June, p. 533*

Forming

Polymethylmethacrylate Extruded Sheets, I. Ronzoni and U. Monaco, *October, p. 1203*

G

Glass Fiber

An Epoxy-Acrylic Thermoset, C. A. May, R. E. Burge, Jr. and S. H. Christie, *September, p. 1106*
Physical Properties of High-Temperature Allylic Prepregs, H. Raech, Jr. and J. M. Kreinik, *October, p. 1189*
Plastics Featured at SAE Show, O. Pfannkuch, *March, p. 254*
Plastics in Building, R. P. Conger, *June, p. 538*
Processing Reinforced Plastics Interior Automotive Parts, R. W. Meyer, *November, p. 1279*
Rapid Cycle Molding of Improved Surface Laminates, C. F. Thompson, L. C. Rubens and R. M. Nowak, *March, p. 267*
Recent Developments in Sandwich Construction With Rigid Urethane Foam, R. L. Siren, *November, p. 1290*
Reinforced Plastic Molds for Large Blow Molding Structures, M. E. Kenney, *December, p. 1384*
Reinforced Plastics, D. V. Rosato, *June, p. 541*
Reinforced Plastics for Deep Submersible Vehicles, B. C. Anderson, *September, p. 1090*

Job Descriptions

Descriptions for Selected Jobs in Plastics Processing, U. S. Dept. of Labor, *October, p. 1174*

L

Laminates

Designing with Thermoplastic Polyurethane Sheet and Film, D. Esarove, *October, p. 1184*
The Effect of Cryogenic Temperatures on the Mechanical Properties of Reinforced Plastics Laminates, J. Hertz, *February, p. 181*
An Epoxy-Acrylic Thermoset, C. A. May, R. E. Burge, Jr., and S. H. Christie, *September, p. 1106*
Physical Properties of High Temperature Allylic Prepregs, H. Raech, Jr. and J. M. Kreinik, *October, p. 1189*
Plastics in Building, R. P. Conger, *June, p. 538*
Processing Reinforced Plastics Interior Automotive Parts, R. W. Meyer, *November, p. 1279*
Recent Developments in Sandwich Construction With Rigid Urethane Foam, R. L. Siren, *November, p. 1290*
Reinforced Plastics, D. V. Rosato, *June, p. 541*
Reinforced Plastics for Deep Submersible Vehicles, B. C. Anderson, *September, p. 1090*

Laminating

Microfine Polyolefin Powders, S. G. Howell, *June, p. 583*
Processing Reinforced Plastics Interior Automotive Parts, R. W. Meyer, *November, p. 1279*
Rapid Cycle Molding of Improved Surface Laminates, C. F. Thompson, L. C. Rubens, and R. M. Nowak, *March, p. 267*

M

Maintenance

Data Processing Automates Maintenance Control, T. C. Barnes, *April, p. 359*

Material Handling

Pneumatic Resin Conveyor Cuts Costs for Processor, O. E. Smith, *November, p. 1295*

Materials

The Effect of Cryogenic Temperatures on the Mechanical Properties of Reinforced Plastics Laminates, J. Hertz, *February, p. 181*
Plastics Featured at the SAE Show, O. Pfannkuch, *March, p. 254*
Plastics in Building, R. P. Conger, *June, p. 538*
Plastics Properties, R. F. Westover, *June, p. 551*
Q2: A New Polycyclamide Engineering Plastic, M. T. Watson and G. M. Armstrong, *May, p. 475*
Rapid Cycle Molding of Improved Surface Laminates, C. F. Thompson, L. C. Rubens and R. M. Nowak, *March, p. 267*

Mechanical Properties

ASTM Data vs. Parts Data, R. E. Eshenaur, *May, p. 466*
Designing with Thermoplastic Polyurethane Sheet and Film, D. Esarove, *October, p. 1184*
The Effect of Cryogenic Temperatures on the Mechanical Properties of Reinforced Plastics Laminates, J. Hertz, *February, p. 181*
Engineering Properties of a New Polytetrafluoroethylene, G. P. Koo, E. D. Jones, N. N. Riddell and J. L. O'Toole, *September, p. 1100*
An Epoxy-Acrylic Thermoset, C. A. May, R. E. Burge, Jr. and S. H. Christie, *September, p. 1106*
Evaluating the Processing Characteristics of Wire and Cable Coating Polyethylene Resins, J. E. Hager and P. E. Jacobs, *January, p. 75*
Factors Affecting Impact Strength of Rigid PVC Compositions, R. Phillips, D. S. Dixler and C. A. Heiberger, *November, p. 1305*
Know Your Parison!, N. Sheptak and C. E. Beyer, *February, p. 190*
New Hydrocarbon Resin Molding Compounds, B. M. Vanderbilt, J. J. Jaruzelski and T. Lewis, *March, p. 288*
Physical Properties of High-Temperature Allylic Prepregs, H. Raech, Jr. and J. M. Kreinik, *October, p. 1189*
Polymethylmethacrylate Extruded Sheets, I. Ronzoni and U. Monaco, *October, p. 1203*
Preliminary Evaluation of Polymer Properties, A. E. Sherr, *January, p. 67*
Rapid Cycle Molding of Improved Surface Laminates, C. F. Thompson, L. C. Rubens and R. M. Nowak, *March, p. 267*
Recent Developments in Sandwich Construction With Rigid Urethane Foam, R. L. Siren, *November, p. 1290*
Reinforced Plastics for Deep Submersible Vehicles, B. C. Anderson, *September, p. 1090*
Thermal Processing Stability of Vinyl Chloride Plastics, J. B. DeCoste, *August, p. 764*

Melt Indexing

Effect of Extrusion Processing on Environmental Stress Cracking Resistance of Polyethylene Sheathing Compounds, J. R. Apen, **Part I**, *July, p. 643,* **Part II**, *August, p. 745*
On-Stream Melt Viscosity Analyzer, R. O. Welty, *August, p. 774*
Thermal Processing Stability of Vinyl Chloride Plastics, J. B. DeCoste, *August, p. 764*

Melt Temperature

Extrusion of Rigid PVC Powder Compounds, J. A. Rolls and G. B. Richmond, *February, p. 197*
Thermal and Viscosity Effects in Short Barreled Extruders, D. W. Riley, *June, p. 567*

Metering Screw

Effect of Extrusion Processing on Environmental Stress Cracking Resistance of Polyethylene Sheathing Compounds, J. R. Apen, **Part I**, *July, p. 643,* **Part II**, *August, p. 745*
Extrusion of Rigid PVC Powder Compounds, J. A. Rolls and G. B. Richmond, *February, p. 197*
Industry Trends in Machinery, R. Sackett, *December, p. 1359*
Metering Screw Performance with Temperature Gradients—Part I. Experiments, D. I. Marshall, I. Klein and R. H. Uhl, *October, p. 1192;* **Part II, Comparison of Calculated and Measured Performance**, I. Klein, D. I. Marshall and C. A. Friehe, *November, p. 1299;* **Part III, Conclusions for Computer Simulation**,

D. I. Marshall and I. Klein, *December, p. 1376*
Metering Screws in a Screw Injection Molding Machine, P. N. Richardson and J. C. Houston, *January, p. 44*
Thermal and Viscosity Effects in Short Barreled Extruders, D. W. Riley, *June, p. 567*

Mold Design

Essentials of Mold Design in Production Planning, E. W. Vaill, *March, p. 274*
Hints on Better Mold Performance, W. Young, *December, p. 1362*
Mold Construction for Automatic Molding of Thermosetting Materials, R. R. Martino, *February, p. 165*
Mold Design Features in the New Injection Machines, W. B. Campbell, *January, p. 37*
Mold Design for Automatic Runnerless Molding, M. I. Ross, *June, p. 559*
The Mold Engineer—His Responsibilities, SPE Journal Staff, *August, p. 754*
Reinforced Plastic Molds for Large Blow Molding Structures, M. E. Kenney, *December, p. 1384*

Molding Compounds

Blow Molding, G. E. Pickering, *June, p. 534*
Descriptions for Selected Jobs in Plastics Processing, U. S. Dept. of Labor, *October, p. 1174*
Design Engineering Show Broadens the Horizon of Plastics, O. Pfannkuch, *July, p. 636*
Injection Molding, B. A. Olmstead, *June, p. 532*
Injection Molding by Injection Molders, Cleveland Section, *December, p. 1346*
The Mold Engineer—His Responsibilities, SPE Journal Staff, *August, p. 754*
New Hydrocarbon Resin Molding Compounds, B. M. Vanderbilt, J. J. Jaruzelski and T. Lewis, *March, p. 288*
Novel Process for Molding Urethane Foam, R. Moroni and H. E. Schmetkamp, *May, p. 470*
Phenoxy Blow Molded Bottles, J. A. Elder, Jr., *May, p. 480*
Precision Injection Molding Through Statistical Quality Control, M. A. Sanders, *July, p. 663*
Processing Reinforced Plastics Interior Automotive Parts, R. W. Meyer, *November, p. 1279*
Rapid Cycle Molding of Improved Surface Laminates, C. F. Thompson, L. C. Ruebens and R. M. Nowak, *March, p. 267*
Reinforced Plastic Molds for Large Blow Molding Structures, M. E. Kenney, *December, p. 1384*
Thermosetting Molding, J. F. O'Brien, *June, p. 547*

Molding Equipment

Comparison of a Modern Central Hydraulic System vs. the Self-Contained System, G. A. Tanner, *April, p. 364*
Dual Purpose Water Chilling System Ups Molding-Machine Production, Heats Plant in Winter, C. E. Waters, *April, p. 362*
Hints on Better Mold Performance, W. Young, *December, p. 1362*
Materials for Moldmaking and their Special Treatment, A. J. Corci, *May, p. 462*
Mold Design for Automatic Runnerless Molding, M. I. Ross, *June, p. 559*
The Mold Engineer—His Responsibilities, SPE Journal Staff, *August, p. 754*
Novel Process for Molding Urethane Foam, R. Moroni and H. E. Schmetkamp, *May, p. 470*
Precision Casting of Mold Components, W. G. Pfaff, *April, p. 397*
Processing Reinforced Plastics Interior Automotive Parts, R. W. Meyer, *November, p. 1279*
Reinforced Plastic Molds for Large Blow Molding Structures, M. E. Kenney, *December, p. 1384*

SPE Annual Report, *March, p. 299*
The SPE in Plastics Education, H. C. McCann, *October, p. 1159*
The SPE and the 22nd ANTEC in Canada, H. McCann, *December, p. 1352*
SPE International Award, Dr. T. Alfrey, Jr., Recipient, *January, p. 57*
SPE Journal Advertising Staff Announcement (W. E. Moore), *May, p. 444*
SPE Journal Editorial Staff Announcement (D. K. Nason), *July, p. 647*
SPE Selects Best Paper at ANTEC, *October, p. 1175*
The Women in SPE, R. E. Rossner, *August, p. 732*
Your Guide to SPE National Officers, Committee Chairman, Geographical and Alphabetical Listings, *August, p. 821*

Space Applications

The Effect of Cryogenic Temperatures on the Mechanical Properties of Reinforced Plastic Laminates, J. Hertz, *February, p. 181*

SPE Journal Surveys

Technical Progress in the Plastics Industry, SPE Journal Survey, *June, p. 528*

Stability

Color in Plastics, *September, p. 1063*
Extrusion of Peroxide Containing Polyethylene, C. J. Benning, *September, p. 1083*
Photodegradation of Rigid Polyvinyl Chloride, L. B. Weisfeld, G. A. Thacker and L. I. Nass, *July, p. 649*
Thermal Processing Stability of Vinyl Chloride Plastics, J. B. DeCoste, *August, p. 764*
The Use of Carbon Blacks in Plastics, I. Drogin, Part I, *March, p. 248;* Part II, *April, p. 371*

Stabilizers

Extrusion of Peroxide Containing Polyethylene, C. J. Benning, *September, p. 1083*
Factors Affecting Impact Strength of Rigid PVC Compositions, R. Phillips, D. S. Dixler and C. A. Heiberger, *November, p. 1305*
Photodegradation of Rigid Polyvinyl Chloride, L. B. Weisfeld, G. A. Thacker and L. I. Nass, *July, 649*
Thermal Processing Stability of Vinyl Chloride Plastics, J. B. DeCoste, *August, p. 764*

Standards

ASTM Data vs. Parts Data, R. E. Eshenaur, *May, p. 466*
Plastics in Building, R. P. Conger, *June, p. 538*
Plastics Properties, R. F. Westover, *June, p. 551*
The Plastics Standards Digest, *February, p. 175*
The Plastics Standards Digest, *October, p. 1177*
The Roles of Technical Societies, Industry Groups and Trade Associations in Standardization, G. M. Kline and R. B. Akin, *December, p. 1367*
Specifications for Plastics, P. E. Willard, *April, p. 386*
Synthetic Polymers and the Federal Food, Drug, and Cosmetic Act, E. B. Detwiler, *January, p. 61*

Steels

Hints on Better Mold Performance, W. Young, *December, p. 1362*
Mechanical Aspects of Extruder Cylinders, L. J. Mattek, *January, p. 80*
Mold Design Features in the New Injection Machines, W. B. Campbell, *January, p. 37*

Stress

Determination of Stresses in Cured Epoxy Resins, H. Dannenberg, *July, p. 669*

Stress Cracking

Effect of Extrusion Processing on Environmental Stress Cracking Resistance of Polyethylene Sheathing Compounds, J. R. Apen, Part I, *July, p. 643,* Part II, *August, p. 745*
Fracture Mechanics of Stress Cracking and Crazing, L. J. Broutman, *March, p. 283*
Factors Affecting Impact Strength of Rigid PVC Compositions, R. Phillips, D. S. Dixler and C. A. Heiberger, *November, p. 1305*

Stress-Strain Characteristics

Engineering Properties of a New Polytetrafluoroethylene, G. P. Koo, E. D.

Jones, N. N. Riddell and J. L. O'Toole, *September, p. 1100*
Evaluating the Processing Characteristics of Wire and Cable Coating Polyethylene Resins, J. E. Hager and P. E. Jacobs, *January, p. 75*
Factors Affecting Impact Strength of Rigid PVC Compositions, R. Phillips, D. S. Dixler and C. A. Heiberger, *November, p. 1305*
Polymethylmethacrylate Extruded Sheets, I. Ronzoni and U. Monaco, *October, p. 1203*
Preliminary Evaluation of Polymer Properties, A. E. Sherr, *January, p. 67*
Recent Developments in Sandwich Construction With Rigid Urethane Foam, R. L. Siren, *November, p. 1290*

Structural Applications
Plastics in Building, R. P. Conger, *June, p. 538*
Recent Developments in Sandwich Construction with Rigid Urethane Foam, R. L. Siren, *November, p. 1290*
Reinforced Plastics, D. V. Rosato, *June, p. 541*

Styrene-Butadiene
New Hydrocarbon Resin Molding Compounds, B. M. Vanderbilt, J. J. Jaruzelski and T. Lewis, *March, p. 288*

Surface
Rapid Cycle Molding of Improved Surface Laminates, C. F. Thompson, L. C. Rubens and R. M. Nowak, *March, p. 267*

Swell
Know Your Parison!, N. Sheptak and C. E. Beyer, *February, p. 190*
New Hydrocarbon Resin Molding Compounds, B. M. Vanderbilt, J. J. Jaruzelski and T. Lewis, *March, p. 288*

T

Technical Progress
Technical Progress in the Plastics Industry, SPE Journal Survey, *June, p. 529*

Tensile Properties
ASTM Data vs. Parts Data, R. E. Eshenaur, *May, p. 466*
Engineering Properties of a New Polytetrafluoroethylene, G. P. Koo, E. D. Jones, N. N. Riddell and J. L. O'Toole, *September, p. 1100*
Preliminary Evaluation of Polymer Properties, A. E. Sherr, *January, p. 67*

Testing
ASTM Data vs. Parts Data, R. E. Eshenaur, *May, p. 466*
Determination of Stresses in Cured Epoxy Resins, H. Dannenberg, *July, p. 669*
The Effect of Cryogenic Temperatures on the Mechanical Properties of Reinforced Plastic Laminates, J. Hertz, *February, p. 181*
Evaluating the Processing Characteristics of Wire and Cable Coating Polyethylene Resins, J. E. Hager and P. E. Jacobs, *January, p. 75*
Evaluation and Description of Metallic Colors, H. C. Felsher and W. J. Hanau, *December, p. 1371*
Factors Affecting Impact Strength of Rigid PVC Compositions, R. Phillips, D. S. Dixler and C. A. Heiberger, *November, p. 1305*
Metering Screw Performance with Temperature Gradients—Part I, Experiments, D. I. Marshall, I. Klein and R. H. Uhl, *October, p. 1192;* **Part II, Comparison of Calculated and Measured Performance,** I. Klein, D. I. Marshall and C. A. Friehe, *November, p. 1299;* **Part III, Conclusions for Computer Simulation,** D. I. Marshall and I. Klein, *December, p. 1376*
Metering Screws in a Screw Injection Molding Machine, P. N. Richardson and J. C. Houston, *January, p. 44*
New Hydrocarbon Resin Molding Compounds, B. M. Vanderbilt, J. J. Jaruzelski, and T. Lewis, *March, p. 288*
On-Stream Melt Viscosity Analyzer, R. O. Welty, *August, p. 774*
Photodegradation of Rigid Polyvinyl Chloride, L. B. Weisfeld, G. A. Thacker and L. I. Nass, *July, p. 649*
Plastics Properties, R. F. Westover, *June, p. 551*
Preliminary Evaluation of Polymer Properties, A. E. Sherr, *January, p. 67*
Thermal Processing Stability of Vinyl Chloride Plastics, J. B. DeCoste, *August, p. 764*

Thermally Stable Polymers
New Hydrocarbon Resin Molding Compounds, B. M. Vanderbilt, J. J. Jaruzelski and T. Lewis, *March, p. 288*
Rapid Cycle Molding of Improved Surface Laminates, C. F. Thompson, L. C. Rubens and R. M. Nowak, *March, p. 267*

Thermoforming
Forming, R. E. Fryer, *June, p. 542*
Polymethylmethacrylate Extruded Sheets, I. Ronzoni and U. Monaco, *October, p. 1203*

Thermoplastics
Color in Plastics, *September, p. 1063*
Designing with Thermoplastic Polyurethane Sheet and Film, D. Esarove, *October, p. 1184*
Engineering Properties of a New Polytetrafluoroethylene, G. P. Koo, E. D. Jones, N. N. Riddell and J. L. O'Toole, *September, p. 1100*
Polymethylmethacrylate Extruded Sheets, I. Ronzoni and U. Monaco, *October, p. 1203*
Polyolefins, A. A. Hiltz, *June, p. 544*

Thermosets
An Epoxy-Acrylic Thermoset, C. A. May, R. E. Burge, Jr. and S. H. Christie, *September, p. 1106*
Mold Construction for Automatic Molding of Thermosetting Materials, R. R. Martino, *February, p. 165*
New Hydrocarbon Resin Molding Compounds, B. M. Vanderbilt, J. J. Jaruzelski and T. Lewis, *March, p. 288*
Rapid Cycle Molding of Improved Surface Laminates, C. F. Thompson, L. C. Rubens and R. M. Nowak, *March, p. 267*
Thermosetting Molding, J. F. O'Brien, *June, p. 547*

Transfer Molding
Mold Construction for Automatic Molding of Thermosetting Materials, R. R. Martino, *February, p. 165*

U

Ultra-Violet
Color in Plastics, *September, p. 1063*
Photodegradation of Rigid Polyvinyl Chloride, L. B. Weisfeld, G. A. Thacker and L. I. Nass, *July, p. 649*
The Use of Carbon Blacks in Plastics, I. Drogin, **Part I,** *March, p. 248;* **Part II,** *April, p. 371*

Urethane Foam
Economics of Urethane Foams—A Summary, M. A. Kohudic, *July, p. 660*
Novel Process for Molding Urethane Foam, R. Moroni and H. E. Schmetkamp, *May, p. 470*
Technology and Engineering—Development on the March, M. A. Kohudic, *March, p. 281*
Urethane Foam Machinery Exhibited at Delft, Holland, SPE Staff, *September, p. 1080*

V

Vinyls
Extrusion of Rigid PVC Powder Compounds, J. A. Rolls and G. B. Richmond, *February, p. 197*
Factors Affecting Impact Strength of Rigid PVC Compositions, R. Phillips, D. S. Dixler and C. A. Heiberger, *November, p. 1305*
Metering Screw Performance with Temperature Gradients—Part I, Experiments, D. I. Marshall, I. Klein and R. H. Uhl, *October, p. 1192;* **Part II, Comparison of Calculated and Measured Performance,** I. Klein, D. I. Marshall and C. A. Friehe, *November, p. 1299;* **Part III, Conclusions for Computer Simulation,** D. I. Marshall and I. Klein, *December, p. 1376*
Photodegradation of Rigid Polyvinyl Chloride, L. B. Weisfeld, G. A. Thacker and L. I. Nass, *July, p. 649*
Plastics Dominate Packaging Show, O. E. Pfannkuch, *June, p. 574*
Plastics in Building, R. P. Conger, *June, p. 538*
Thermal and Viscosity Effects in Short Barreled Extruders, D. W. Riley, *June, p. 567*
Thermal Processing Stability of Vinyl Chloride Plastics, J. B. DeCoste, *August, p. 764*
Vinyl Plastics, R. A. Park, *June, p. 533*

Viscosity
An Epoxy-Acrylic Thermoset, C. A. May, R. E. Burge, Jr. and S. H. Christie, *September, p. 1106*
On-Stream Melt Viscosity Analyzer, R. O. Welty, *August, p. 774*
Thermal and Viscosity Effects in Short Barreled Extruders, D. W. Riley, *June, p. 567*
Thermal Processing Stability of Vinyl Chloride Plastics, J. B. DeCoste, *August, p. 764*
